

List of credits on the specialty “Physical Materials science”

MASTER	
NAME OF SUBJECTS	CREDITS
Metal science and heat treatment	N/D
Material science	N/D
Interdiscipline Problems of Materials Science	N/D
Scientific Principles of Composite Materials Forming	N/D
Probe nanotechnology for surface modification	N/D
Crystallography of new materials	N/D
Computer simulation technology of physical processes	N/D
Theory and Technology of Powder and Composite Materials Forming and Sintering	N/D
Heat Treatment of Metals and Alloys	N/D
Theory and Technology of Producing the Dispersed Nanomaterials	N/D
